

Visit our website Campus Dish at www.akron.campusdish.com to find information on dining locations, menus, hours of operation and more. View menus served at Rob's Café and utilize the Allergen & Intolerances or Food Preferences filters as a guide to make informed food choices. The Allergens & Intolerances filter includes - eggs, fish, milk, peanuts, shellfish, soy, tree nuts and wheat. The Food Preferences filter includes vegan and vegetarian.

We rely on our vendors' allergy warning and ingredient listings.

Because we operate in a commercial kitchen, we cannot fully guarantee that the food will be completely free of allergens.

Our Dining Services team strives to accommodate students who have dietary restrictions due to food allergies and/or intolerances. Please visit our website or contact our Dining Services team for more information about dining options that fit your needs.
